BEAU

BEAU

Exciting DJ, producer and multi-instrumentalist Beau has received support from global DJ's - Annie Mac [Hottest Record In The World], Danny Howard [Friday Fire], Pete Tong, Jamie Jones, Archie Hamilton, Michael Bibi, Disclosure, Claptone, Sam Devine and Simon Dunmore.

With a string of quality EP's on labels such as Ministry of Sound, Elrow, SIKR, Solid Grooves and Eton Messy, the London based artist found himself releasing a solo outing, 'Stuck On Repeat' on the incredible Axtone Records in May 2022. This in itself is a badge only a select few can flaunt, yet somehow the accolades don't stop there. Beau's sensational single in the summer of 2020, 'Ode to Ibiza' took the club and radio world by storm and was the main reason for the 1.1M streams that were clocked on his Spotify artist page at the end of that year, spread across a whopping 92 countries.

As somebody who produces all parts of his tracks, (vocals and instruments including) it is hard to see what isn't possible with this talent, who has already DJ'd at some of London's most iconic venues: Fabric, Printworks and Studio 338.

Having just released on Cr2 with his hot new track 'Losing You', Beau is showing incredible versatility in his production style, which integrates Disco, Funk and French-touched inspired house.

The future looks extremely bright for this talented artist.
